

HAMZA MUQTADDIR

Senior PHP Laravel Developer

hamzamuqtaddir@gmail.com | +92 332 2033704 | Karachi, Pakistan
github.com/Hamza-web709 | linkedin.com/in/hamza-muqtaddir | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Senior Laravel Developer with extensive hands-on experience architecting and delivering scalable, high-performance web applications. Deep expertise in Laravel (MVC, Eloquent ORM, REST APIs, Queues, Events, Middleware), MySQL database design, and modern frontend integration using Bootstrap 5 and Blade templating. Proven ability to lead multi-panel application development, implement role-based access control, design relational database schemas, and deliver SaaS-grade solutions. Passionate about clean code, performance optimization, and mentoring junior developers. Currently completing a Diploma in Software Engineering at APTECH Computer Education.

TECHNICAL SKILLS

Backend: PHP 8.x, Laravel 9/10/11, MVC Architecture, Eloquent ORM, REST APIs, Queues & Jobs, Events & Listeners, Artisan CLI, Middleware, Service Providers, Repository Pattern

Frontend: HTML5, CSS3, JavaScript (ES6+), Bootstrap 5, Alpine.js (Basic), Blade Templating, AOS Animations, Responsive Design

Database: MySQL, Database Design & Normalization, Eloquent Relationships, Query Builder, Migrations & Seeders, Query Optimization

SaaS & Architecture: Role-Based Access Control (RBAC), Multi-panel Applications, Multi-tenancy (Basic), API Development, SaaS Module Design

Reporting: PDF Generation (DomPDF/Laravel PDF), CSV/Excel Export, Data Analytics Dashboards

DevOps & Tools: Git & GitHub, VS Code, XAMPP, cPanel Deployment, Composer, NPM, JIRA (Basic)

Concepts: SOLID Principles, DRY, Clean Code, Agile/Scrum (Basic), Code Review, Performance Optimization

PROFESSIONAL EXPERIENCE

Senior Laravel Developer (Freelance) — Self-Employed / Remote Clients 2023 – Present

- Architected and delivered a full SaaS-grade inventory and sales management system (StockFlow Pro) with multi-role access, real-time stock tracking, purchase/sales workflows, and automated PDF/CSV reporting
- Built a multi-branch school web platform (Rakhshinda Group of Schools) with premium Bootstrap 5 + AOS frontend, news management, gallery, announcements, and branch-level content management
- Developed a medical appointment booking system (CARE) with Admin, Doctor, and Patient panels, role-based session handling, and appointment scheduling logic
- Delivered 5+ client projects covering e-commerce modules, booking systems, and content platforms using Laravel and MySQL
- Maintained clean Git workflows, wrote technical documentation, and ensured deployments via cPanel shared hosting

Computer & Operations Assistant — Herman Acme Grammar School 2022 – 2023

- Managed computer lab systems, maintained institutional data records, and supported day-to-day IT operations
- Developed in-house data entry and reporting workflows, improving administrative efficiency

Data Entry & Operations — AYS Work (Software House) 2022

- Handled structured data entry, record management, and internal operations support for software delivery teams
-

KEY PROJECTS

01. [Appointment Booking System \(CARE\)](#) | Laravel • PHP • MySQL • Bootstrap • Blade
[{Care - Github}](#)

- Three-panel system (Admin, Doctor, Patient) with full role-based access control
- Admin dashboard for managing doctors, patients, appointments, cities, diseases, and medical news
- Doctor availability scheduling and patient self-registration with session management
- Relational MySQL schema with normalized tables and Eloquent ORM relationships

02. [Rakhshinda Group of Schools \(RGS\) Website](#) | Laravel • Blade • Bootstrap 5 • AOS • MySQL
[{RGS - Github}](#)

- Multi-branch school platform with maroon-and-amber premium design system and scroll-animated UI
- Admin CMS panel for managing news, events, gallery, announcements, and branch-specific content
- SEO-friendly structure, mobile-first responsive design, and fast page load optimization

05. [Personal Portfolio Website](#) | HTML • CSS • JavaScript • Bootstrap 5
[{Portfolio - Github}](#)

- Mobile-first responsive portfolio deployed on GitHub Pages with custom CSS animations

EDUCATION

Diploma in Software Engineering — **APTECH Computer Education, North Nazimabad** Currently Enrolled

- Core software engineering: programming, databases, web development, and software architecture
- Hands-on Laravel, PHP, MySQL, and frontend development training
- Awarded Best Performance in the first month of enrollment

CERTIFICATIONS & TRAINING

- WordPress Web Development — Certification
- Fiverr Freelancing — Certification (LWE Program)
- Git & GitHub — Version Control & Portfolio Management
- Prompt Engineering Competition — SkillBridge AI Presentation (APTECH)
